

Dr. AJAY KUMAR SINGHAL

SR. VICE PRESIDENT, G R INFRAPROJECTS LIMITED

Summary:

Dr. Ajay Kumar Singhal is a highly accomplished professional with over 36 years of experience in the construction industry. His robust academic background, encompassing a PhD in Construction Contract Management, an MBA in Project Management, a BSc in Information Technology, and a Diploma in Civil Engineering, empowers him with a comprehensive understanding of the field.

His career is marked by a blend of technical, financial, analytical, and strategic expertise, making him a versatile leader in project and contract management. He had the opportunity to work with the best engineering professionals from Japan, Singapore, Canada, Korea, Germany, United Kingdom, and Sweden, among others.

Experience and Expertise:

Dr. Singhal's career trajectory showcases progressive leadership roles at renowned organizations namely G R Infraprojects Limited (4.5 years), BIL Infratech Ltd (Braj Binani Group) (0.5 years), Simplex Infrastructures Limited (15.5 years), KSHI JV (1.5 years), Larsen & Toubro Limited (14.5 years).

He has a proven track record of early project completion, securing high-value claims, and developing innovative tools for project monitoring and planning. His expertise includes Project Management Systems, Contracts & Claim Management, Project Coordination, Project Execution, Tendering, Business Strategy, Training & Development, and more.

Authorship and Recognition:

Dr. Singhal has authored two books, "Basics of Construction Management" (2014) and "Strategies to Prevent Construction Delays" (2021), and published numerous papers. He holds two copyrights and has applied for one patent. His contributions to the field have earned him several accolades, including the Vishwakarma Award by CIDC as "Outstanding Technologist" (2015) and the Safety Man of the Year Award (2004).

Active Contribution and Leadership:

Beyond his corporate roles, Dr. Singhal actively provides guidance to several institutes. He is member of various professional bodies and advisory boards, and is affiliated with numerous institutes, contributing to the development of industry standards and educational programs. He delivers lectures at engineering and management institutes and Public Sector Undertakings (PSUs) across India and has designed various course modules for universities.

His exceptional leadership, innovative mindset, and team-building skills, coupled with his extensive technical expertise, make him an invaluable asset to any organization in the construction sector.
