Profile

- The firm was established in **2000** by **Dr. Atul Jaiswal**, to fulfill the basic requirements of towns. The aim and object was to do basic analysis of requirement needs to make it most economical as per the budget.
- The firm provides all kind of **architectural and engineering services** under one roof to make people comfortable up to their full satisfaction and to achieve best results. The organization fulfills architectural and engineering know how for planning and designing of government, semi government, public, private organization, educational campuses, industrial areas, and indeed all spheres of constructional activities.
- In past years **Dr. Atul Jaiswal** did a lot of consultancy works of architecture and engineering. In the field of environmental engineering the latest Aerobic base waste water treatment Technology.

Introduction

Atul Jaiswal received B.Tech.Degree in Civil Engineering from Amrutvahini College of Engineering, Ahamadnagar, India. He has completed M. Tech. with specialization in Structural Engineering from Motilal Nehru National Institute of Technology (MNNIT Allahabad), Allahabad, India in June 2005. In 2000, he started his own consultancy and construction firm as Sandhya Constructions and Consultants in Allahabad. In June 2010, he started working in North India Engineers Lab and Consultants an engineering laboratory. He is practicing as consulting engineer in Allahabad, preparation of corporation, structure and service drawings for submitting in Allahabad development authority. He has good interlocking with architects and engineers and he is associate member (AM098020-2) of institution of engineer, India. He has great interest in structural analysis and multi-story structure related problems. His research interests are numerical analysis and design with simulation of advance techniques for high rise buildings/ structures.

Vision

- In its short span of time, the Firm has established a track record of excellence and reliability in the field of architectural, environmental & construction work.
- The Company has a good interlocking with experts of various fields and from different parts of country to carry out the construction works in the various spheres of engineering.
- The staff consists of individuals who excel in their respective fields viz. architecture, structural construction, and the likes.
We are thus, able to put teams uniquely suited to each project and have personal & involvement of principles at all stages of every project. Hence, we are always in a position to clear even the last stone on the path of the progress of the work.

Work Experience

Name: Dr. Atul Jaiswal (Civil Engineering from MNNIT, Allahabad)
Ex. Guest faculty at I.E.R.T. Prayagraj,(Diploma division, 2020-21)

Qualifications:

- Bachelor of Engineering, (Civil Engineering).
- Masters of Technology, (Structural Engineering).
- The knowledge of AutoCAD, Ansys, Staad pro & Sap 2000 (Software's of Structural design & drawing).

Projects Handled

Sr. No.	<u>Nature of Project</u>	<u>Client</u>	<u>Location</u>
1	Solid Waste Management. (A profile of Allahabad City)	Guide Prof. V.M. Kolhe.	Allahabad.
2	Development Of Joints In Fiber Reinforced Ferro cement Pipe.	Guide Prof.S.K.Duggal.	Allahabad.
3	Plant extension civil/mechanical works. (as a contractor)	I.O.C.L. Pipe Line Division.	Allahabad.
4	U.R. Complex. (A Commercial Complex)	Mr. Manoj Jaiswal.	Allahabad.
5	Ducting Trenching & Tower Foundation. (As a contractor with Singh Techno)	Reliance Infocom.	Kanpur.
6	Kesarwani Complex. (A Commercial Complex)	Mr. Kesarwani.	Allahabad.
7	Dharma complex. (A Commercial Complex)	Mr. Ashok Chaurasia.	Allahabad.

Sr. No.	<u>Nature of Project</u>	<u>Client</u>	<u>Location</u>
8	Residential building	Prof. R.P.Tiwari.	Allahabad.
9	Designing & Planning of Sewage Treatment Scheme for Pragati Puram Colony.	Raibareli Development Authority.	Raibareli.
10	Planning & Designing of a Gym.	Mr. Sandeep Dixit.	Allahabad.
11	Institutional Building.	N.D. Tiwari Trust.	Allahabad.
12	Design of land scrapings at Saheed Smarak.	Raibareli Development Authority.	Raibareli.
13	Feasibility report over a flyover at Rambagh.	Allahabad Development Authority.	Allahabad.

Sr. No.	<u>Nature of Project</u>	<u>Year</u>	<u>Client</u>	<u>Location</u>
1	Topographical Survey of land 5000 Sqm. by using total station at Civil Lince Valmiki Chauraha.	2010.	Ar. Manish gujral.	Civil-Lince Allahabad.
2	Geotechnical investigation for design of foundation for Over-head tank by exploring 2BH's of 10 m. depth.	2010.	C&DS, Unit-33.	High-Court, Allahabad.
3	Structural design of Over-head tank o 500 kl capacity with 22m staging.	2010.	C&DS, Unit-33.	High-Court, Allahabad.
4	Geotechnical investigation for design of foundation for Sewerage structures (oxidation pond & slump well etc.) at A- Gaughat by exploring 2 BH's of 20m. depth & B- Naini by exploring 2 BH's of 10m. depth.	2011.	Ramkey Infrastructure Ltd.	Allahabad.
5	Complete work of topographical survey using Total-Station (grid size 15m. x 15m.) of 12 acre ground area including boundary and adjacent roads.	2011.	Industrial Development Services Pvt.Ltd. New Delhi.	NSIC, Naini.
6	Geotechnical investigation by boring of 150mm. dia. Using shaft and auger method through normal soil upto 12m. depth & 0.5 m. rock strata from existing ground level to required depth. And conducted SPT at 1.5m intervals and collected undisturbed & disturbed samples at change of each strata & recording ground water table in each bore hole for design of foundation for Sewerage structures (oxidation pond & slump well etc.) completed with all field & lab investigations & report preparation.	2011.	HNB Engineers Pvt. Ltd.	Lukar gunj, Allahabad.

Sr. No.	<u>Nature of Project</u>	<u>Year</u>	<u>Client</u>	<u>Location</u>
7	Geotechnical investigation by boring of 150mm. dia. Using shaft and auger method through normal soil 2BH's of 20m. depth from existing ground level to required depth. And conducted SPT at 1.5m intervals and collected undisturbed & disturbed samples at change of each strata & recording ground water table in each bore hole for design of foundation for Sewerage structures (oxidation pond & slump well etc.) completed with all field & lab investigations & report preparation.	2011.	HNB Engineers Pvt. Ltd.	Kodhara, Allahabad.
8	Geotechnical investigation for design of foundation for Sewerage structures (oxidation pond & slump well etc.) by exploring 2BH's of 20 m. depth. Completed with all field & lab investigations & mobilization.	2011.	M/S Krushi Infra India Pvt.Ltd.	Naini, Allahabad.
9	Design and drawing of steel gate (2.4m.x4.5m.) for back watering in tail regulator.	2011.	Drainage division-1.	Jewar, Meerut.
10	Geotechnical investigation for design of foundation of multi-storied building by exploring 5BH's of 15 m. depth as per IS Specifications. Completed with all field & lab investigations & shifting of equipments at site.	2011.	Construction division-1. PWD.	Stanley road, Allahabad.

Sr. No.	<u>Nature of Project</u>	<u>Year</u>	<u>Client</u>	<u>Location</u>
11	Geotechnical investigation by boring of 150mm. dia. Using shaft and auger method through normal soil 3BH's of 10m. depth from existing ground level to required depth. And conducted SPT at 1.5m intervals and collected undisturbed & disturbed samples at change of each strata & recording ground water table in each bore hole for design of foundation for Sewerage structures (oxidation pond & slump well etc.) completed with all field & lab investigations & report preparation.	2011.	HNB Engineers Pvt. Ltd.	Numayadahi, Allahabad.
12	Geotechnical investigation for design of foundation of multi-storied building by exploring 1BH's of 15 m. depth as per IS Specifications. Completed with all field & lab investigations & shifting of equipments at site.	2011.	Construction division-1. PWD.	Stanley road, Allahabad.
13	Geotechnical investigation by boring of 150mm. dia. Using shaft and auger method through normal soil 2BH's of 10m. depth from existing ground level to required depth. And conducted SPT at 1.5m intervals and collected undisturbed & disturbed samples at change of each strata & recording ground water table in each bore hole for design of foundation for Sewerage structures (oxidation pond & slump well etc.) completed with all field & lab investigations & report preparation.	2011.	HNB Engineers Pvt. Ltd.	Ponghat, Allahabad.

Sr. No.	<u>Nature of Project</u>	<u>Year</u>	<u>Client</u>	<u>Location</u>
14	Geotechnical exploration for determination of bulk density, dry density & permeability by drilling 8 BH's of 10m. depth and collected undisturbed & disturbed samples at change of each strata.	2011.	UPPCL, Construction unit-15.	Kunar Dam Site, Jhansi.
15	Geotechnical exploration for determination of bulk density, dry density & permeability by drilling 12 BH's of 6m. depth and collected undisturbed & disturbed samples at change of each strata.	2011.	UPPCL, Construction unit-15.	Bara high level feeder canal, Allahabad.
16	Geotechnical investigation for multistoried building by boring of 150mm. dia. using shaft and auger method through normal soil 25 BH's of 25m. depth from existing ground level to required depth for proposed Himalya enclave at Vrindavan yojana sector-16. And conducted SPT at 1.5m intervals and collected undisturbed & disturbed samples at change of each strata & recording ground water table in each bore hole completed with all field & lab investigations as per IS specifications.	2011.	U.P. Avas avam vikas parisad. Construction Division-19	Vrindavan yojana sector 16, Lucknow.
17	Geotechnical exploration for determination of bulk density, dry density & permeability by drilling 8 BH's of 10m. depth and collected undisturbed & disturbed samples at change of each strata.	2011.	UPPCL, Construction unit-15.	Kunar Dam Site, Jhansi.
18	Consultancy providing for connection details of steel structure.	2011.	Ratna Infrastructure Projects Pvt. Ltd.	Ashok Nagar, Allahabad.
19	Cylindrical sample recovery from concrete road with diamond cutting core drilling machine 9 no.'s.	2012.	R.E.S., Raibareli.	Mubarakpur, Ambedker village Raibareli.

Sr. No.	<u>Nature of Project</u>	<u>Year</u>	<u>Client</u>	<u>Location</u>
20	Cylindrical sample recovery from concrete road with diamond cutting core drilling machine 12 no.'s.	2012.	R.E.S., Raibareli.	Pandeypur, Ambedker village Raibareli.
21	Geotechnical investigation for proposed Culvert at Stanly road by boring of 150mm. dia. using shaft and auger method through normal soil 4 BH's of 20m. depth from existing ground level to required. And conducted SPT at 1.5m intervals and collected undisturbed & disturbed samples at change of each strata & recording ground water table in each bore hole completed with all field & lab investigations as per IS specifications.	2012.	Construction Division-1 P.W.D., Allahabad.	Stanly road, Allahabad.
22	Geotechnical investigation for proposed Culvert at Stanly road by boring of 150mm. dia. using shaft and auger method through normal soil 4 BH's of 20m. depth from existing ground level to required. And conducted SPT at 1.5m intervals and collected undisturbed & disturbed samples at change of each strata & recording ground water table in each bore hole completed with all field & lab investigations as per IS specifications.	2012.	Construction Division-1 P.W.D., Allahabad.	Stanly road, Allahabad.
23	Geotechnical investigation for design of foundation of institutional building by exploring 2 BH's of 10m. depth completed with all field investigation including sample collection, labour, shifting of equipment & preparation of report as per IS specifications.	2012.	SGS Construction Company.	Kajipur, Naini.

Sr. No.	<u>Nature of Project</u>	<u>Year</u>	<u>Client</u>	<u>Location</u>
24	Geotechnical investigation for design of foundation of Culvert/Bridge by exploring 3 BH's of 10m. depth completed with all field investigation including sample collection, labour, shifting of equipment as per IS specifications.	2012.	STML Infra Limited.	Mirzapur.
25	Construction of platform with girder, bags loading for pile load test up to 110 tonnes loading completed with all field works.	2012.	U.P. Jal nigam.	Allahabad.
26	Geotechnical exploration by drilling 3 BH's of 10m. depth for calculating S.B.C. for design of foundation of steel overhead tank completed with all field investigation including sample collection, labour, shifting of equipment as per IS specifications.	2012.	Construction Division, U.P. Jal nigam.	Allahabad.
27	Geotechnical investigation for design of foundation of residential building by boring of 150mm. dia. using shaft and auger method through normal soil 3 BH's of 10m. depth from existing ground level to required and collected undisturbed & disturbed samples completed with all field & lab investigations as per IS specifications.	2012.	U.P. Jal nigam, Unit-10.	Salori, Allahabad.
28	Complete survey of area 6 acres by total station completed with fixing bench mark, boundary & contour survey.	2012.	TATA Power Solar, Allahabad.	Naini, Allahabad.
29	Geotechnical investigation by exploring 2 BH's of 15m. depth each in rock by rig machine for determining of S.B.C. for designing of foundation of hotel cum commercial complex completed with all field investigation including sample collection, labour, shifting of equipment as per IS specifications.	2012.	Ms Anuraj real estate Pvt. Ltd.	rewa, M.P.
